Social Networks and Family Change in Japan

This volume examines family change in Korea, Japan, and the United States. It focuses on Japan, South Korea, and the United States. The volume includes articles on the changing family in Japan, South Korea, and the United States. It provides an excellent discussion of the The Changing Family in Comparative Perspective: Asia and the United States. It also provides a comprehensive overview of the gender division of household labor in Japan and South Korea. Moreover, it examines the relationship between employment and housework among married women in Japan, South Korea, and the United States. The volume also explores the gender division of household labor in nontraditional family-related attitudes in Japan, South Korea, and the United States.
